

Association "InformaGiovani", with its national and international partners and with the support of EU Programmes "Youth in Action" or "Daphne III" is organizing some "special" workcamps in different countries in Europe, with special financial and application procedures.

- For some of the camps there is a travel contribution of 50% (only for volunteers coming from specified countries).
- For some camps, there are no registration and participation fee (but the travel is still to be paid by the volunteer).

In the attach, you can find the English description of the camps.

To apply, please follow strictly the procedure explained herein, otherwise your application will be discarded.
