

EVS program mi je omogućio priliku da otputujem u Bruxelles te da u periodu od godine dana radim u Europskoj organizaciji ekološke poljoprivrede „IFOAM EU“. Moj posao se temelji na povezivanju svih aktera ekološkog sektora Europske Unije u svrhu prenošenja njihovih stavova prema Europskim institucijama. Osim radnih aktivnosti, život u Bruxellesu je iznimno dinamičan. Može se upoznati interesantne ljude iz cijele Europe i svijeta. To su sve redom otvoreni ljudi, koji su mnogo putovali, pričaju dosta stranih jezika a i svima je u interesu upoznati i sprijateljiti se što je više moguće. Svima bih preporučio jedno takvo iskustvo. Veliki pozdrav iz Bruxellesa.

English version:

The EVS programme has allowed me a great opportunity of going to Bruxelles for one year

and to work in the European organization for organic agriculture called „IFOAM EU“. My job includes connecting the actors of organic sector in the EU and transferring their opinions to the European institutions. Besides work tasks, life in Brussels is very dynamic. You can meet all kinds of people from all around Europe and the World. They all seem to be very open minded, have travelled all around the world, are fluent in many languages and are very interested in meeting new people. I would highly recommend similar experience to everyone. All the best from Brussels.
