

Treneri CO-GREEN-a bit će angažirani u organizaciji i provedbi lokalnih programa obuke za skupine aktivatora zajednice. Zainteresirani pojedinci mogu se osobno javiti na broj telefona 051 271 459 ili mobitel 0958705423.

Više o programu:

What will be the CO-GREEN trainers' role?

The CO-GREEN trainers will be engaged in organising and delivering the local training programmes for the groups of community activators.

In this capacity, the trainers will:

- a. **support the CO-GREEN project staff** in developing the training programme for the community activators (September-October 2023), also participating in the planned workshop to review and finalise the programme (in remote mode, 9th-10th October);
- b. **participate in the 4-day CO-GREEN international school** (part-time), organised as a hybrid training event taking place in November 2023. Three or four representatives of the local trainers may be asked to participate in presence (at least 1 person from each territory), travelling to Karditsa (Greece) using the project's funds;
- c. **participate in the 2-day CO-GREEN school** (part-time), organised by the local partners in November 2023;
- d. **train the local group(s) of CO-GREEN activators**, starting from December 2023 until March 2024. This training will be organised as a hands-on pathway, whereby trainers support and guide the activators in the so-called "Citizens' laboratories" and other community-based activities;
- e. **provide inputs and feedback to the CO-GREEN project staff** about possible improvements and adaptations of the training programme.

In total, the trainers will be asked to dedicate approx. 60 hours to the different planned activities.

Participants in the CO-GREEN schools will receive a certificate of attendance.

Aktivnosti su dijelom WP 4 - Ongoing participatory mapping of the green players / Događaj
