

Interesting facts

- The smallest town in the world is Hum, in Istria, with a population of only 23 people.
- The necktie was invented in Croatia.

Croatia night

This day was in some way special: we started with the division into workshops, where we brainstormed and prepared for working. We were divided into 4 groups: Performance, Initiative, Painting and Media group. The final crown of our work will be the video in which every group and individual will appear.

This day we were very interested in Croatia that had the presentation. They wanted to make the best impression and we could really see that they worked hard on their presentation. They showed us several videos with the most beautiful places to see in their country. As Croatia is Slavic country, rich with typical food and drinks, they prepared a lot of things for us to try. All the fun and marvelous things we did that day can be seen in the pictures.

Quote of the day

If it doesn't challenge you it doesn't change you.
